

# Transformational Healing Sessions

with **Norma  
Feldman-Nathan**

December 9 & 14  
Cork and Galway

Norma Feldman-Nathan, MSW, is an internationally respected Transformational Coach and Healer. Since 2004 she has brought spiritual growth and clarity to thousands.

Norma is uniquely gifted at zeroing in on the root cause of any issue. And, by focusing powerful transformational tools, dissolving restrictive energy imprints at their core.

Norma blends her natural love of people with warmth, humor, generosity of spirit and genuine caring for each being she meets. These she combines with a special capacity to transmit high vibration healing energies that activate your sense of joy and life fulfillment.

By applying her rare intuitive ability, Norma helps you to align with your Essence Self, enabling you to live your life in heightened awareness of and in coherence with your higher purpose.

You will awaken to and be empowered by your Divine Nature, and experience an inspired joyful life of inner clarity, focus and contribution.

During this process, relationships are transformed. Destructive patterns dissolve. You should find, and many have, that old wounds, compulsive behaviors, and childhood traumas are resolved. Feelings of depression, anxiety, and lack of self-worth are transmuted into inner freedom, acceptance, self-love and a renewed zest for life.

Methods may include:

- Journey to healing dimensions with anchored energy activations and visualizations
- TimeLine Therapy™
- Meridian based Energy Psychology
- Alignment of personality with Essence Self
- Quantum Field energy healing
- Clearing non-personal energy from the field
- And more.....

These individualized transformational sessions are being offered exclusively during the week of December 9th – 14th in Cork and Galway.

In gratitude for the hospitality of the Irish Community we are offering a limited time special rate. For this week only our usual rate of 122 euro per hour is reduced to just 88 euro per hour.
